

Curriculum vitae Giovanna Navarra

Personal Details

Name: Giovanna

Surname: Navarra

Date of Birth: September 26th 1976

Citizenship: Italian

Language: Italian (mother tongue), English (good)

Phone (mobile): +39 3495810451

Phone (office): +39 091 6234260

E-mail: navarra@fisica.unipa.it

Address (work): Dept. of Physics, University of Palermo, Via Archirafi 36, 90123 Palermo, ITALY

Studies and employment history

01/07/2008 – Today: **Post doctoral fellowship** “Aggregation and amyloid fibrillation processes of proteins” Department of Physics, University of Palermo, Supervisor Prof. Maurizio Leone.

04/2008: **PhD in Physics** c/o Department of Physics, University of Palermo. Thesis title: “Effects of metal ions on aggregation processes of whey proteins”, SDS Fis/07. Supervision of Prof. Maurizio Leone.

2005-2007: collaboration to the research activity for research project "Role of the metal ions in the aggregation processes of proteins" (PRIN 2005).

11/2006 – 06/2008: **Fellowship** from **Consiglio Nazionale delle Ricerche** (CNR), c/o Biophysics unit f Palermo. Research title: “Olive oil characterization by techniques based on the absorption and emission od the electromagnetic radiation” Caratterizzazione degli olii d’oliva mediante tecniche di assorbimento ed emissione della radiazione elettromagnetica”, for the project “REALIZZAZIONE DI UN CENTRO REGIONALE PER IL CONTROLLO DI QUALITÀ DI OLII VERGINI D’OLIVA” P.O.R. della Regione Siciliana 2000/2006, misura 3.15 azione C, Supervisor Dr PL San Biagio.

02/2005 – 12/2007: Students of PhD course c/o Department of Physics, University of Palermo; cicle XIX; research title: “Study of gelation processes of proteins”.

08/2004 – 10/2006: **Post doctoral fellowship** “Point defects in amorphous silica: study by ESR and optical spectroscopy” c/o Department of Physics, University of Palermo, Supervisor Prof. Roberto Boscaino..

10/2003: Consegue la laurea in Fisica con la votazione di 108/110 presso l’Università degli Studi di Palermo, Facoltà di Scienze, Corso di Laurea in Fisica, con una tesi dal titolo: “Metodologie fisiche applicate ai Beni Culturali: una indagine su materiali vetrosi sodico-calcici.”, Relatore Prof. M. Leone. Master Degree in Physics (108/110) c/o the University of Palermo. Thesis title “Physical methods applied to Cultural assets: a study on soda-lime glasses”, Supervision of Prof. M. Leone.

Teaching Experiences

10/2009-Today: Lecturer for the course “Laboratorio di Biofisica” in the degree course in Physics, Faculty of Sciences University of Palermo.

07/2009-Today: Lecturer for the course “Biofisica e Biostrumentazione”in the degree course in Biotechnology, Faculty of Sciences, University of Palermo.

05-12/2009: Assistant supervisor of Filippo Troia, student of the master degree in Physics (University of Palermo); Thesis title: “Processes of nucleated aggregation of Lysozyme” Supervisor: Prof. Maurizio Leone.

01-07/2009: Assistant supervisor of Francesco Cacciabaudo, student of the master degree in Medical Biotechnology and Molecular medicine" (University of Palermo). Supervisor: Prof. V. Militello.

01-11/2010: Assistant supervisor of Francesca Asaro, student of the postgraduate course in Clinic Biochemistry (University of Palermo). Supervisor: Prof. V. Militello.

09/2008-today: training to research activity students of the master degree in Medical Biotechnology and Molecular medicine" (University of Palermo). Supervisor: Prof. V. Militello.

10-12/2008: lecturer for the course in Physics PhD (University of Palermo, cicle XXII) "Difetti di punto e difetti estesi nei materiali amorfi", person in charge: Prof. R. Boscaino.

International schools:

12/2008: "PRACTICAL INTENSIVE WORKSHOP ON 3D MICROSCOPY: Light and Molecules at Work! CONFOCAL 10", Genova, 15-18/12/2008.

04/2008: International school of Biophysics "Antonio Borsellino", Multidimensional optical fluorescence microscopy towards nanoscopy, Erice (Sicily), 19-29/04/2008.

01/2007: XI School of Pure and Applied Biophysics: "Advanced Optical Microscopy Methods in Biophysics", Venezia 28/01-02/02/2007.

09/2005: Spetsai Summer School on "Protein Misfolding, Protein Modification and Age-Related Diseases", Spetses (Grecia), 05-15 Settembre 2005.

Scientific Interests

- Solid state Physics, crystalline and amorphous systems, proteins and biological systems.
- Point defects in silica, radiation-matter interaction, infrared absorption properties,.
- Aggregation and fibrillation processes of proteins, conformational changes of secondary and tertiary structures, protein gelation, morphology study

Applied Physical skills

- Absorption (UV-Visible, infrared) and luminescence spectroscopy.
- Cryogenic measurements at liquid helium.
- Light Scattering
- Atomic Force Microscopy
- Confocal fluorescence microscopy
- Two photons Confocal fluorescence microscopy

Computer skills

- Windows and Office applications
- Scientific softwares: (Origin 8, SigmaPlot 11, Opus)

Referee activity for international scientific journals

Journal of Agricultural and Food Chemistry

Journal of Non-Crystalline Solids

Materials Chemistry and Physics

Nuclear Inst. and Methods in Physics Research, B

ISI Publications

- G. Buscarino, E. Vella, G. Navarra and R. Boscaino
A two-component model for the 2260 cm⁻¹ infrared absorption band in electron irradiated amorphous SiO₂
J. Non-Cryst Solids (2011) doi:10.1016/j.jnoncrysol.2010.10.042
- G. Navarra, M. Cannas, M. D'Amico, D. Giacomazza, V. Militello, L. Vaccaro, M. Leone
Thermal oxidative process in extra-virgin olive oils studied by FTIR, rheology and time-resolved luminescence
Food Chemistry 126 (2011) 1226-1231, ISSN: 0308-8146, doi:10.1016/j.foodchem.2010.12.010.
- E. Vella, G. Navarra and R. Boscaino
Temperature dependence of the absorption properties of silanol groups in amorphous SiO₂: Are silanol groups organized in clusters?
Solid State Communications 151 (2011) 306-310, ISSN: 0038-1098, doi:10.1016/j.ssc.2010.11.04.
